

Blimp-1 Monoclonal Antibody

Catalog No	BYab-00955
Isotype	IgG
Reactivity	Human;Mouse
Applications	WB;ELISA
Gene Name	PRDM1
Protein Name	PR domain zinc finger protein 1
Immunogen	Purified recombinant fragment of human Blimp-1 expressed in E. Coli.
Specificity	Blimp-1 Monoclonal Antibody detects endogenous levels of Blimp-1 protein.
Formulation	Ascitic fluid containing 0.03% sodium azide,0.5% BSA, 50%glycerol.
Source	Monoclonal, Mouse
Purification	Affinity purification
Dilution	Western Blot: 1/500 - 1/2000. ELISA: 1/10000. Not yet tested in other applications.
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	PRDM1; BLIMP1; PR domain zinc finger protein 1; BLIMP-1; Beta-interferon gene positive regulatory domain I-binding factor; PR domain-containing protein 1; Positive regulatory domain I-binding factor 1; PRDI-BF1; PRDI-binding factor 1
Observed Band	
Cell Pathway	Nucleus . Cytoplasm .
Tissue Specificity	PCR rescued clones,Stomach,
Function	function:Transcriptional repressor that binds specifically to the PRDI element in the promoter of the beta-interferon gene. Drives the maturation of B-lymphocytes into Ig secreting cells.,similarity:Contains 1 SET domain.,similarity:Contains 4 C2H2-type zinc fingers.,subunit:Interacts with PRMT5.,
Background	This gene encodes a protein that acts as a repressor of beta-interferon gene expression. The protein binds specifically to the PRDI (positive regulatory domain I element) of the beta-IFN gene promoter. Transcription of this gene increases upon virus induction. Two alternatively spliced transcript variants that encode different isoforms have been reported. [provided by RefSeq, Jul 2008],
