

Arrestin-β-2 Monoclonal Antibody

Catalog No BYab-03432 Isotype IgG Reactivity Human;Mouse;Rat;Pig Applications WB;IF Gene Name ARRB2 Protein Name Beta-arrestin-2 Immunogen Purified recombinant human Arrestin-β-2 (C-terminus) protein fragments expressed in E.coli. Specificity Arrestin-β-2 Monoclonal Antibody detects endogenous levels of Arrestin-β-2 protein. Formulation Purified mouse monoclonal in buffer containing 0.1M Tris-Glycine (pH 7.4, 150 mM NaCl) with 0.2% sodium azide, 50% glycerol. Source Monoclonal, Mouse Purification Affinity purification Dilution Western Blot: 1/1000 - 1/2000. Immunofluorescence: 1/100 - 1/500. Not yet tested in other applications. Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms ARRB2; ARB2; ARR2; Beta-arrestin-2; Arrestin beta-2 Observed Band Cytoplasm, Nucleus. Cell membrane. Membrane, clathrin-coated pit. Cytoplasmic vesicle. Translocates to the plasma membrane and colocalizes with antagonist-stimulated GPCRs. Tissue Specificity Brain, Cord blood, Endometrium, Muscle, Pancreas, Testis, Thyroid, function. Regulates beta-adrenergic receptors thereby causing a sign		
Reactivity Human; Mouse; Rat; Pig Applications WB; IF Gene Name ARRB2 Protein Name Beta-arrestin-2 Immunogen Purified recombinant human Arrestin-β-2 (C-terminus) protein fragments expressed in E.coli. Specificity Arrestin-β-2 Monoclonal Antibody detects endogenous levels of Arrestin-β-2 protein. Formulation Purified mouse monoclonal in buffer containing 0.1M Tris-Glycine (pH 7.4, 150 mM NaCl) with 0.2% sodium azide, 50% glycerol. 	levels in the central nervous system and may play a role in the regulation of synaptic receptors. Besides the brain, a cDNA for arrestin beta 2 was isolated from thyroid gland, and thus it may also be involved in hormone-specific desensitization of TSH receptors. Multiple alternatively spliced transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Mar 2012],
