

# DYR1A Monoclonal Antibody

|                           |                                                                                                                                                                            |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYmab-04891                                                                                                                                                                |
| Isotype                   | IgG                                                                                                                                                                        |
| Reactivity                | Human;Mouse;Rat                                                                                                                                                            |
| Applications              | WB                                                                                                                                                                         |
| Gene Name                 | DYRK1A DYRK MNB MNBH                                                                                                                                                       |
| Protein Name              | Dual specificity tyrosine-phosphorylation-regulated kinase 1A (EC 2.7.12.1) (Dual specificity YAK1-related kinase) (HP86) (Protein kinase minibrain homolog) (MNBH) (hMNB) |
| Immunogen                 | Synthesized peptide derived from human protein . at AA range: 270-350                                                                                                      |
| Specificity               | DYR1A Monoclonal Antibody detects endogenous levels of protein.                                                                                                            |
| Formulation               | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                             |
| Source                    | Monoclonal, Mouse,IgG                                                                                                                                                      |
| Purification              | The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.                                                       |
| Dilution                  | WB 1:500-2000                                                                                                                                                              |
| Concentration             | 1 mg/ml                                                                                                                                                                    |
| Purity                    | ≥90%                                                                                                                                                                       |
| Storage Stability         | -20°C/1 year                                                                                                                                                               |
| Synonyms                  |                                                                                                                                                                            |
| Observed Band             | 92156DA                                                                                                                                                                    |
| Cell Pathway              | Nucleus . Nucleus speckle .                                                                                                                                                |
| Tissue Specificity        | Ubiquitous. Highest levels in skeletal muscle, testis, fetal lung and fetal kidney.                                                                                        |
| Function                  |                                                                                                                                                                            |
| Background                |                                                                                                                                                                            |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                       |
