

## **BIN2 Monoclonal Antibody**

Catalog No         BYmab-06585           Isotype         IgG           Reactivity         Human;Rat;Mouse;           Applications         WB           Gene Name         BIN2 BRAP1           Protein Name         Bridging integrator 2 (Breast cancer-associated protein 1)           Immunogen         Synthesized peptide derived from human protein . at AA range: 260-340           Specificity         BIN2 Monoclonal Antibody detects endogenous levels of protein.           Formulation         Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.           Source         Monoclonal, Mouse, IgG           Purification         The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.           Dilution         WB 1:500-2000           Concentration         1 mg/ml           Purity         ≥90%           Storage Stability         -20°C/1 year           Synonyms         Observed Band         62kD           Cell Pathway         Cytoplasm; Cell projection, podosome membrane; Peripheral membrane protein active with membranes enriched in phosphoniositides. Detected in the actin-rich cell cortex at the leading edge of migrating cells. Detected at podosomes, at an actin-rich ring-like structure.           Tissue Specificity         Detected in natural killer cells (at protein level). Highest level expression seen in thymus, colon and placen		
Reactivity Human;Rat;Mouse;  Applications WB  Gene Name BIN2 BRAP1  Protein Name Bridging integrator 2 (Breast cancer-associated protein 1)  Immunogen Synthesized peptide derived from human protein . at AA range: 260-340  Specificity BIN2 Monoclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Monoclonal, Mouse,lgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms  Observed Band 62kD  Cell Pathway Cytoplasm. Cell projection, podosome membrane; Peripheral membrane protein: Cytoplasmic side. Cytoplasm, cell cortex. Cell projection, phagocytic cup. Associates with membranes enriched in phosphoinositides. Detected in the activarion cell cortex at the leading edge of migrating cells. Detected at podosomes, at an actin-rich ring-like structure.  Tissue Specificity Detected in natural killer cells (at protein level). Highest level expression seen in spleen and peripheral blood leukocytes and is also expressed at high levels in thymus, colon and placenta, suggesting preferential expression in hematopoietic level in thymus, colon and placenta, suggesting preferential expression in hematopoietic levels in thymus, colon and placenta, suggesting preferential expression in	Catalog No	BYmab-06585
Applications WB  Gene Name BIN2 BRAP1  Protein Name Bridging integrator 2 (Breast cancer-associated protein 1)  Immunogen Synthesized peptide derived from human protein . at AA range: 260-340  Specificity BIN2 Monoclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms  Observed Band 62kD  Cell Pathway Cytoplasm, Cell projection, podosome membrane : Peripheral membrane protein : Cytoplasmic side . Cytoplasm, cell cortex . Cell projection, phagocytic cup . Associates with membranes enriched in phosphoniostities. Detected in the actin-rich cell cortex at the leading edge of migrating cells. Detected at podosomes, at an actin-rich ring-like structure.  Tissue Specificity Detected in natural killer cells (at protein level). Highest level expression seen in spleen and peripheral blood leukocytes and is also expressed at high levels in thymus, colon and placenta, suggesting preferentiation, similarity: Contains 1 BAR domain, subunit: Interacts with BIN1, tissue specificity-lighest level expression seen in spleen and peripheral blood leukocytes and is also expressed at high levels in thymus, colon and placenta, suggesting preferential expression in	Isotype	IgG
Gene Name BIN2 BRAP1  Protein Name Bridging integrator 2 (Breast cancer-associated protein 1)  Immunogen Synthesized peptide derived from human protein . at AA range: 260-340  Specificity BIN2 Monoclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.
