

# MYCL1 Monoclonal Antibody

|                           |                                                                                                                                                                                   |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYmab-07184                                                                                                                                                                       |
| Isotype                   | IgG                                                                                                                                                                               |
| Reactivity                | Human;Mouse                                                                                                                                                                       |
| Applications              | WB                                                                                                                                                                                |
| Gene Name                 | MYCL1 BHLHE38 LMYC MYCL                                                                                                                                                           |
| Protein Name              | Protein L-Myc-1 (Class E basic helix-loop-helix protein 38) (bHLHe38)                                                                                                             |
| Immunogen                 | Synthesized peptide derived from human protein . at AA range: 170-250                                                                                                             |
| Specificity               | MYCL1 Monoclonal Antibody detects endogenous levels of protein.                                                                                                                   |
| Formulation               | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                                    |
| Source                    | Monoclonal, Mouse,IgG                                                                                                                                                             |
| Purification              | The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.                                                              |
| Dilution                  | WB 1:500-2000                                                                                                                                                                     |
| Concentration             | 1 mg/ml                                                                                                                                                                           |
| Purity                    | ≥90%                                                                                                                                                                              |
| Storage Stability         | -20°C/1 year                                                                                                                                                                      |
| Synonyms                  |                                                                                                                                                                                   |
| Observed Band             | 40kD                                                                                                                                                                              |
| Cell Pathway              | Nucleus .                                                                                                                                                                         |
| Tissue Specificity        | Placenta,                                                                                                                                                                         |
| Function                  | similarity:Contains 1 basic helix-loop-helix (bHLH) domain.,subunit:Efficient DNA binding requires dimerization with another bHLH protein. Binds DNA as an heterodimer with MAX., |
| Background                | similarity:Contains 1 basic helix-loop-helix (bHLH) domain.,subunit:Efficient DNA binding requires dimerization with another bHLH protein. Binds DNA as an heterodimer with MAX., |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                              |
