

UD11 mouse mAb

Catalog No	BYmab-08687
lsotype	lgG
Reactivity	Human; Mouse;Rat
Applications	WB
Gene Name	UGT1A1 GNT1 UGT1
Protein Name	UD11
Immunogen	Synthesized peptide derived from human UD11 AA range: 36-86
Specificity	This antibody detects endogenous levels of UD11 at Human/Mouse/Rat
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stehility	0010/4
Storage Stability	-20°C/1 year
Synonyms	-20°C/1 year
	-20°C/1 year
Synonyms	-20°C/1 year Endoplasmic reticulum membrane ; Single-pass membrane protein . Cytoplasm, perinuclear region .
Synonyms Observed Band	Endoplasmic reticulum membrane ; Single-pass membrane protein . Cytoplasm,

	nuclei) within the first year of life. CN-I inheritance is autosomal recessive.,disease:Defects in UGT1A1 are the cause of Crigler-Najjar syn
Background	This gene encodes a UDP-glucuronosyltransferase, an enzyme of the glucuronidation pathway that transforms small lipophilic molecules, such as steroids, bilirubin, hormones, and drugs, into water-soluble, excretable metabolites. This gene is part of a complex locus that encodes several UDP-glucuronosyltransferases. The locus includes thirteen unique alternate first exons followed by four common exons. Four of the alternate first exons are considered pseudogenes. Each of the remaining nine 5' exons may be spliced to the four common exons, resulting in nine proteins with different N-termini and identical C-termini. Each first exon encodes the substrate binding site, and is regulated by its own promoter. The preferred substrate of this enzyme is bilirubin, although it also has moderate activity with simple phenols, flavones, and C18 steroids. Mutations in this gene result in Crigler-Najjar syndromes types I and II and in Gilbert syndrome. [provided by RefSeq, Jul 2008],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
