

MB211 mouse mAb

Catalog No	BYmab-08744
Isotype	IgG
Reactivity	Human; Mouse
Applications	WB
Gene Name	MAB21L1 CAGR1 Nbla00126
Protein Name	MB211
Immunogen	Synthesized peptide derived from human MB211 AA range: 73-123
Specificity	This antibody detects endogenous levels of MB211 at Human/Mouse
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	
Observed Band	
Cell Pathway	Nucleus .
Tissue Specificity	Expressed in brain, cerebellum and skeletal muscle.
Function	function:Required for several aspects of embryonic development including normal development of the eye.,miscellaneous:A CAG trinucleotide repeat occurs in the 5'-UTR of this gene. This repeat has been found to be highly polymorphic, although expanded alleles have not yet been definitely linked with any phenotypic abnormality.,similarity:Belongs to the mab-21 family.,tissue specificity:Expressed in brain, cerebellum and skeletal muscle.,
Background	This gene is similar to the MAB-21 cell fate-determining gene found in C. elegans. It may be involved in eye and cerebellum development, and it has been proposed that expansion of a trinucleotide repeat region in the 5' UTR may play a role in a variety of psychiatric disorders. [provided by RefSeq, Oct 2008],

matters needing attention

Avoid repeated freezing and thawing!

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
