

C1GLT mouse mAb

Catalog No	BYmab-11473
Isotype	IgG
Reactivity	Human; Mouse;Rat
Applications	WB
Gene Name	C1GALT1
Protein Name	C1GLT
Immunogen	Synthesized peptide derived from human C1GLT AA range: 102-152
Specificity	This antibody detects endogenous levels of C1GLT at Human/Mouse/Rat
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	
Observed Band	
Cell Pathway	Membrane ; Single-pass type II membrane protein .
Tissue Specificity	Widely expressed. Highly expressed in kidney, heart, placenta and liver.
Function	catalytic activity:UDP-galactose + glycoprotein N-acetyl-D-galactosamine = UDP + glycoprotein D-galactosyl-1,3-N-acetyl-D-galactosamine.,cofactor:Magnesium.,disease:Defect s in C1GALT1 may be a cause of susceptibility to IgA nephropathy (IgAN). IgAN is the most common primary glomerulonephritis, which is partly due to aberrant or incomplete galactosylation of IgA1 molecules.,function:Glycosyltransferase that generates the core 1 O-glycan Gal-beta1-3GalNAc-alpha1-Ser/Thr (T antigen), which is a precursor for many extended O-glycans in glycoproteins. Plays a central role in many processes, such as angiogenesis, thrombopoiesis and kidney homeostasis development.,online information:Core1 UDP-galactose:N-acetylgalactosamine-alpha-R beta 1,3-galactosyltransferase,pathway:Protein modification; protein

Nanjing BYabscience technology Co.,Ltd

glycosylation.,similarity:Belongs to the glycosyltransferase 31 family. Beta3-Gal-T subfamily.,

Background

The protein encoded by this gene generates the common core 1 O-glycan structure, Gal-beta-1-3GalNAc-R, by the transfer of Gal from UDP-Gal to GalNAc-alpha-1-R. Core 1 is a precursor for many extended mucin-type O-glycans on cell surface and secreted glycoproteins. Studies in mice suggest that this gene plays a key role in thrombopoiesis and kidney homeostasis.[provided by RefSeq, Sep 2010],

matters needing attention

Avoid repeated freezing and thawing!

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
