

# LRC48 mouse mAb

|                           |                                                                                                                                                       |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYmab-11702                                                                                                                                           |
| Isotype                   | IgG                                                                                                                                                   |
| Reactivity                | Human; Mouse;Rat                                                                                                                                      |
| Applications              | WB                                                                                                                                                    |
| Gene Name                 | LRRC48                                                                                                                                                |
| Protein Name              | LRC48                                                                                                                                                 |
| Immunogen                 | Synthesized peptide derived from human LRC48 AA range: 250-300                                                                                        |
| Specificity               | This antibody detects endogenous levels of LRC48 at Human/Mouse/Rat                                                                                   |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                               |
| Source                    | Monoclonal, Mouse,IgG                                                                                                                                 |
| Purification              | The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.                                  |
| Dilution                  | WB 1:500-2000                                                                                                                                         |
| Concentration             | 1 mg/ml                                                                                                                                               |
| Purity                    | ≥90%                                                                                                                                                  |
| Storage Stability         | -20°C/1 year                                                                                                                                          |
| Synonyms                  |                                                                                                                                                       |
| Observed Band             |                                                                                                                                                       |
| Cell Pathway              | Cytoplasm, cytoskeleton, cilium axoneme . Cell projection, cilium . Cytoplasm, cytoskeleton, flagellum axoneme . Cell projection, cilium, flagellum . |
| Tissue Specificity        |                                                                                                                                                       |
| Function                  | similarity:Contains 5 LRR (leucine-rich) repeats.,                                                                                                    |
| Background                |                                                                                                                                                       |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                  |
| Usage suggestions         | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.                     |
