

GPR119 Monoclonal Antibody

Catalog No Isotype Reactivity Applications Gene Name Protein Name	BYmab-13290 IgG Human;Rat;Mouse; WB GPR119 Glucose-dependent insulinotropic receptor
Reactivity Applications Gene Name	Human;Rat;Mouse; WB GPR119
Applications Gene Name	WB GPR119
Gene Name	GPR119
Protein Name	Glucose-dependent insulinotropic receptor
Immunogen	The antiserum was produced against synthesized peptide derived from human GPR119. AA range:186-235
Specificity	GPR119 Monoclonal Antibody detects endogenous levels of GPR119 protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	GPR119; Glucose-dependent insulinotropic receptor; G-protein coupled receptor 119
Observed Band	37kD
Cell Pathway	Cell membrane; Multi-pass membrane protein.
Tissue Specificity	Predominantly expressed in the pancreas, especially in the islets.
Function	function:Receptor for the endogenous fatty-acid ethanolamide oleoylethanolamide (OEA) and lysophosphatidylcholine (LPC). Functions as a glucose-dependent insulinotropic receptor. The activity of this receptor is mediated by G proteins which activate adenylate cyclase. Seems to act through a G(s) mediated pathway.,similarity:Belongs to the G-protein coupled receptor 1 family.,tissue specificity:Predominantly expressed in the pancreas, especially in the islets.,
Background	This gene encodes a member of the rhodopsin subfamily of G-protein-coupled receptors that is expressed in the pancreas and gastrointestinal tract. The encoded protein is activated by lipid amides including lysophosphatidylcholine

Nanjing BYabscience technology Co.,Ltd

	and oleoylethanolamide and may be involved in glucose homeostasis. This protein is a potential drug target in the treatment of type 2 diabetes.[provided by RefSeq, Jan 2010],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
