

## **ADCK1 Monoclonal Antibody**

Catalog No         BYmab-14643           Isotype         IgG           Reactivity         Human:Mouse           Applications         WB           Gene Name         ADCK1           Protein Name         Uncharacterized aarF domain-containing protein kinase 1           Immunogen         The antiserum was produced against synthesized peptide derived from human ADCK1. AA range:251-300           Specificity         ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.           Formulation         Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.           Source         Monoclonal, Mouse,IgG           Purification         The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.           Dilution         WB 1:500-2000           Concentration         1 mg/ml           Purity         ≥90%           Storage Stability         -20°C/1 year           Synonyms         ADCK1; Uncharacterized aarF domain-containing protein kinase 1           Observed Band         61kD           Cell Pathway         Secreted .           Tissue Specificity         Placenta,5kin,           Function         function:The function of this protein is not yet clear. It is not known if it has protein kinase activity, and what type of substrate it would phosphorylate (Ser		
Reactivity Human; Mouse  Applications WB  Gene Name ADCK1  Protein Name Uncharacterized aarF domain-containing protein kinase 1  Immunogen The antiserum was produced against synthesized peptide derived from human ADCK1. AA range:251-300  Specificity ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted .  Tissue Specificity Placenta, Skin, Function function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity, Belongs to the protein kinase superfamily. ADCK protein kinase family, similarity: Contains 1 protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Contains 1 protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase domain.	Catalog No	BYmab-14643
Applications WB Gene Name ADCK1  Protein Name Uncharacterized aarF domain-containing protein kinase 1  Immunogen The antiserum was produced against synthesized peptide derived from human ADCK1. AA range:251-300  Specificity ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted.  Tissue Specificity Placenta, Skin,  Function kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity, Belongs to the protein kinase domain.  Background function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity, Selongs to the protein kinase superfamily. ADCK protein kinase family, similarity. Georgia to the protein kinase superfamily. ADCK protein kinase of Tyry), similarity. Selongs to the protein kinase superfamily. ADCK protein kinase	Isotype	IgG
Gene Name ADCK1  Protein Name Uncharacterized aarF domain-containing protein kinase 1  Immunogen The antiserum was produced against synthesized peptide derived from human ADCK1. AA range:251-300  Specificity ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted .  Tissue Specificity Placenta, Skin,  Function function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase superfamily. ADCK protein kinase family, similarity: Contains 1 protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase superfamily. ADCK protein kinase	Reactivity	Human;Mouse
Protein Name Uncharacterized aarF domain-containing protein kinase 1  Immunogen The antiserum was produced against synthesized peptide derived from human ADCK1. AA range:251-300  Specificity ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Monoclonal, Mouse,IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted .  Tissue Specificity Placenta,Skin,  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family, similarity:Contains 1 protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Applications	WB
Immunogen       The antiserum was produced against synthesized peptide derived from human ADCK1. AA range:251-300         Specificity       ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.         Formulation       Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.         Source       Monoclonal, Mouse, IgG         Purification       The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.         Dilution       WB 1:500-2000         Concentration       1 mg/ml         Purity       ≥90%         Storage Stability       -20°C/1 year         Synonyms       ADCK1; Uncharacterized aarF domain-containing protein kinase 1         Observed Band       61kD         Cell Pathway       Secreted .         Tissue Specificity       Placenta,Skin,         Function       function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity;Belongs to the protein kinase superfamily. ADCK protein kinase family, similarity;Contains 1 protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity;Belongs to the protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity;Belongs to the protein kinase superfamily. ADCK protein kinase	Gene Name	ADCK1
ADCK1. AA range:251-300  Specificity ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted.  Tissue Specificity Placenta, Skin,  Function function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase admain.  Background function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase domain.	Protein Name	Uncharacterized aarF domain-containing protein kinase 1
Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted .  Tissue Specificity Placenta,Skin,  Function function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr),.similarity:Contains 1 protein kinase domain.  Background function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr),.similarity:Belongs to the protein kinase domain.	Immunogen	
Source Monoclonal, Mouse,IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted .  Tissue Specificity Placenta,Skin,  Function function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family.,similarity:Contains 1 protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase domain.,	Specificity	ADCK1 Monoclonal Antibody detects endogenous levels of ADCK1 protein.
Purification  The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution  WB 1:500-2000  Concentration  1 mg/ml  Purity  ≥90%  Storage Stability  -20°C/1 year  Synonyms  ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band  61kD  Cell Pathway  Secreted .  Tissue Specificity  Placenta,Skin,  Function  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr),,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family, similarity:Contains 1 protein kinase domain.,  Background  function:The function of this protein is not yet clear. It is not known if it has protein kinase domain.,  function:The function of this protein is not yet clear. It is not known if it has protein kinase domain.,  Function:The function of this protein kinase domain.,  Background	Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted .  Tissue Specificity Placenta, Skin,  Function function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase superfamily. ADCK protein kinase family, similarity: Contains 1 protein kinase domain.,  Background function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase superfamily. ADCK protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity: Belongs to the protein kinase superfamily. ADCK protein kinase	Source	Monoclonal, Mouse,IgG
Concentration       1 mg/ml         Purity       ≥90%         Storage Stability       -20°C/1 year         Synonyms       ADCK1; Uncharacterized aarF domain-containing protein kinase 1         Observed Band       61kD         Cell Pathway       Secreted .         Tissue Specificity       Placenta,Skin,         Function       function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase domain.,         Background       function:The function of this protein is protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Purification	
Purity ≥90%  Storage Stability -20°C/1 year  Synonyms ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band 61kD  Cell Pathway Secreted.  Tissue Specificity Placenta,Skin,  Function function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family.,similarity:Tontains 1 protein is not yet clear. It is not known if it has protein kinase domain.,  Background function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Dilution	WB 1:500-2000
Storage Stability  -20°C/1 year  ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band  61kD  Cell Pathway  Secreted.  Placenta,Skin,  Function  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family.,similarity:Contains 1 protein kinase domain.,  Background  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Concentration	1 mg/ml
Synonyms  ADCK1; Uncharacterized aarF domain-containing protein kinase 1  Observed Band  61kD  Cell Pathway  Secreted.  Tissue Specificity  Placenta,Skin,  Function  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family.,similarity:Contains 1 protein kinase domain.,  Background  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Purity	≥90%
Observed Band  Cell Pathway  Secreted .  Tissue Specificity  Placenta, Skin,  Function  function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase family., similarity: Contains 1 protein kinase domain.,  Background  function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase	Storage Stability	-20°C/1 year
Cell Pathway         Secreted .           Tissue Specificity         Placenta, Skin,           Function         function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase family., similarity: Contains 1 protein kinase domain.,           Background         function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase	Synonyms	ADCK1; Uncharacterized aarF domain-containing protein kinase 1
Tissue Specificity  Placenta, Skin,  function  function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase family., similarity: Contains 1 protein kinase domain.,  Background  function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase	Observed Band	61kD
Function  function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase family., similarity: Contains 1 protein kinase domain.,  function: The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr)., similarity: Belongs to the protein kinase superfamily. ADCK protein kinase	Cell Pathway	Secreted .
kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase family.,similarity:Contains 1 protein kinase domain.,  Background  function:The function of this protein is not yet clear. It is not known if it has protein kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Tissue Specificity	Placenta,Skin,
kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase	Function	kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr), similarity:Belongs to the protein kinase superfamily. ADCK protein kinase
	Background	kinase activity and what type of substrate it would phosphorylate (Ser, Thr or Tyr).,similarity:Belongs to the protein kinase superfamily. ADCK protein kinase
