| Applications              | WB;ELISA                                                                                                                                                                                                                                |
| Gene Name                 | IFNA16                                                                                                                                                                                                                                  |
| Protein Name              | Interferon alpha-16 (IFN-alpha-16) (Interferon alpha-WA)                                                                                                                                                                                |
| Immunogen                 | Synthesized peptide derived from human protein . at AA range: 110-190                                                                                                                                                                   |
| Specificity               | IFN16 Polyclonal Antibody detects endogenous levels of protein.                                                                                                                                                                         |
| Formulation               | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                                                                                          |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                                                                                                  |
| Purification              | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                   |
| Dilution                  | WB 1:500-2000 ELISA 1:5000-20000                                                                                                                                                                                                        |
| Concentration             | 1 mg/ml                                                                                                                                                                                                                                 |
| Purity                    | ≥90%                                                                                                                                                                                                                                    |
| Storage Stability         | -20°C/1 year                                                                                                                                                                                                                            |
