

# GATA rabbit pAb

|                           |                                                                                                                                                                  |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-09110                                                                                                                                                       |
| Isotype                   | IgG                                                                                                                                                              |
| Reactivity                | Human; Mouse;Rat                                                                                                                                                 |
| Applications              | WB                                                                                                                                                               |
| Gene Name                 | QRSL1                                                                                                                                                            |
| Protein Name              | GATA                                                                                                                                                             |
| Immunogen                 | Synthesized peptide derived from human GATA AA range: 266-316                                                                                                    |
| Specificity               | This antibody detects endogenous levels of GATA at Human/Mouse/Rat                                                                                               |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                          |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                           |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                        |
| Dilution                  | WB 1: 500-2000                                                                                                                                                   |
| Concentration             | 1 mg/ml                                                                                                                                                          |
| Purity                    | ≥90%                                                                                                                                                             |
| Storage Stability         | -20°C/1 year                                                                                                                                                     |
| Synonyms                  |                                                                                                                                                                  |
| Observed Band             |                                                                                                                                                                  |
| Cell Pathway              | Mitochondrion .                                                                                                                                                  |
| Tissue Specificity        |                                                                                                                                                                  |
| Function                  | catalytic activity:ATP + L-glutamyl-tRNA(Gln) + L-glutamine = ADP + phosphate + L-glutaminyI-tRNA(Gln) + L-glutamate.,similarity:Belongs to the amidase family., |
| Background                |                                                                                                                                                                  |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                             |
| Usage suggestions         | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.                                |
