| <b>Applications</b>              | WB                                                                                                                                                                                                                                                               |
| <b>Gene Name</b>                 | HERC2                                                                                                                                                                                                                                                            |
| <b>Protein Name</b>              | E3 ubiquitin-protein ligase HERC2 (EC 6.3.2.-) (HECT domain and RCC1-like domain-containing protein 2)                                                                                                                                                           |
| <b>Immunogen</b>                 | Synthesized peptide derived from human HERC2 AA range: 646-696                                                                                                                                                                                                   |
| <b>Specificity</b>               | This antibody detects endogenous levels of human HERC2                                                                                                                                                                                                           |
| <b>Formulation</b>               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                                                                          |
| <b>Source</b>                    | Polyclonal, Rabbit,IgG                                                                                                                                                                                                                                           |
| <b>Purification</b>              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                                                                                                                        |
| <b>Dilution</b>                  | WB 1:1000-2000                                                                                                                                                                                                                                                   |
| <b>Concentration</b>             | 1 mg/ml                                                                                                                                                                                                                                                          |
| <b>Purity</b>                    | ≥90%                                                                                                                                                                                                                                                             |
| <b>Storage Stability</b>         | -20°C/1 year                                                                                                                                                                                                                                                     |
| <b>Synonyms</b>                  |                                                                                                                                                                                                                                                                  |
| <b>Observed Band</b>             |                                                                                                                                                                                                                                                                  |
| <b>Cell Pathway</b>              | Cytoplasm. Cytoplasm, cytoskeleton, microtubule organizing center, centrosome, centriole. Nucleus. Recruited to sites of DNA damage in response to ionizing radiation (IR) via its interaction with RNF8. May loose association with centrosomes during mitosis. |
| <b>Tissue Specificity</b>        |                                                                                                                                                                                                                                                                  |
| <b>Function</b>                  |                                                                                                                                                                                                                                                                  |
| <b>Background</b>                |                                                                                                                                                                                                                                                                  |
| <b>matters needing attention</b> | Avoid repeated freezing and thawing!                                                                                                                                                                                                                             |
