

# PK10 rabbit pAbV

|                           |                                                                                                                                         |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-09429                                                                                                                              |
| Isotype                   | IgG                                                                                                                                     |
| Reactivity                | Human;Rat;Mouse;                                                                                                                        |
| Applications              | WB                                                                                                                                      |
| Gene Name                 |                                                                                                                                         |
| Protein Name              | HERV-K 5q33.3 provirus ancestral Pro protein (EC 3.4.23.50) (HERV-K10 Pro protein) (HERV-K107 Pro protein) (Protease) (Proteinase) (PR) |
| Immunogen                 | Synthesized peptide derived from human VPK10 AA range: 23-73                                                                            |
| Specificity               | This antibody detects endogenous levels of human VPK10                                                                                  |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                 |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                  |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                               |
| Dilution                  | WB 1:1000-2000                                                                                                                          |
| Concentration             | 1 mg/ml                                                                                                                                 |
| Purity                    | ≥90%                                                                                                                                    |
| Storage Stability         | -20°C/1 year                                                                                                                            |
| Synonyms                  |                                                                                                                                         |
| Observed Band             |                                                                                                                                         |
| Cell Pathway              |                                                                                                                                         |
| Tissue Specificity        |                                                                                                                                         |
| Function                  |                                                                                                                                         |
| Background                |                                                                                                                                         |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                    |
| Usage suggestions         | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.       |
