| Catalog No                | BYab-09534                                                                                                                                                                                                |
| Isotype                   | IgG                                                                                                                                                                                                       |
| Reactivity                | Human;Mouse                                                                                                                                                                                               |
| Applications              | WB                                                                                                                                                                                                        |
| Gene Name                 | ATP8B2 ATPID KIAA1137                                                                                                                                                                                     |
| Protein Name              | Probable phospholipid-transporting ATPase ID (EC 3.6.3.1) (ATPase class I type 8B member 2)                                                                                                               |
| Immunogen                 | Synthesized peptide derived from human AT8B2 AA range: 908-958                                                                                                                                            |
| Specificity               | This antibody detects endogenous levels of human AT8B2                                                                                                                                                    |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                   |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                                                                    |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                                                                 |
| Dilution                  | WB 1:1000-2000                                                                                                                                                                                            |
| Concentration             | 1 mg/ml                                                                                                                                                                                                   |
| Purity                    | ≥90%                                                                                                                                                                                                      |
| Storage Stability         | -20°C/1 year                                                                                                                                                                                              |
| Synonyms                  |                                                                                                                                                                                                           |
| Observed Band             |                                                                                                                                                                                                           |
| Cell Pathway              | Cell membrane ; Multi-pass membrane protein . Endoplasmic reticulum membrane ; Multi-pass membrane protein . Efficient exit from the endoplasmic reticulum requires the presence of TMEM30A or TMEM30B. . |
| Tissue Specificity        | Isoform 3 is ubiquitous, with highest expression in aorta, cerebellum and uterus.                                                                                                                         |
| Function                  |                                                                                                                                                                                                           |
| Background                |                                                                                                                                                                                                           |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                                                      |
