| <b>Gene Name</b>          | USP2 UBPA1                                                                                                                                                                                                                                                                                                       |
| <b>Protein Name</b>       | Ubiquitin carboxyl-terminal hydrolase 2 (EC 3.4.19.12) (41 kDa ubiquitin-specific protease) (Deubiquitinating enzyme 2) (Ubiquitin thioesterase 2) (Ubiquitin-specific-processing protease 2)                                                                                                                    |
| <b>Immunogen</b>          | Synthesized peptide derived from human UBPA2 AA range: 452-502                                                                                                                                                                                                                                                   |
| <b>Specificity</b>        | This antibody detects endogenous levels of human UBPA2                                                                                                                                                                                                                                                           |
| <b>Formulation</b>        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                                                                                                                          |
| <b>Source</b>             | Polyclonal, Rabbit,IgG                                                                                                                                                                                                                                                                                           |
| <b>Purification</b>       | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                                                                                                                                                                        |
| <b>Dilution</b>           | WB 1:1000-2000                                                                                                                                                                                                                                                                                                   |
| <b>Concentration</b>      | 1 mg/ml                                                                                                                                                                                                                                                                                                          |

| <b>Observed Band</b>      |                                                                                                                                                                                                                                                                                                                  |
| <b>Cell Pathway</b>       | Cytoplasm . Cytoplasm, perinuclear region . Localizes in the spermatid head in late-elongating spermatids in the thin area between the outer acrosomal membrane and the plasma membrane. . ; [Isoform 4]: Nucleus . Membrane ; Peripheral membrane protein . Cytoplasm . Predominantly expressed at membranes. . |
| <b>Tissue Specificity</b> | Expressed in mesangial cells of the kidney and in different types of glomerulonephritides (at protein level).                                                                                                                                                                                                    |
| <b>Function</b>           |                                                                                                                                                                                                                                                                                                                  |
| <b>Background</b>         |                                                                                                                                                                                                                                                                                                                  |
