| Catalog No                | BYab-09652                                                                                                                                                                                                  |
| Isotype                   | IgG                                                                                                                                                                                                         |
| Reactivity                | Human;Mouse                                                                                                                                                                                                 |
| Applications              | WB                                                                                                                                                                                                          |
| Gene Name                 | TDRD1                                                                                                                                                                                                       |
| Protein Name              | Tudor domain-containing protein 1 (Cancer/testis antigen 41.1) (CT41.1)                                                                                                                                     |
| Immunogen                 | Synthesized peptide derived from human TDRD1 AA range: 803-853                                                                                                                                              |
| Specificity               | This antibody detects endogenous levels of human TDRD1                                                                                                                                                      |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                     |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                                                                      |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                                                                   |
| Dilution                  | WB 1:1000-2000                                                                                                                                                                                              |
| Concentration             | 1 mg/ml                                                                                                                                                                                                     |
| Purity                    | ≥90%                                                                                                                                                                                                        |
| Storage Stability         | -20°C/1 year                                                                                                                                                                                                |
| Synonyms                  |                                                                                                                                                                                                             |
| Observed Band             |                                                                                                                                                                                                             |
| Cell Pathway              | Cytoplasm . Component of the meiotic nuage, also named P granule, a germ-cell-specific organelle required to repress transposon activity during meiosis. Also present in chromatoid body (By similarity). . |
| Tissue Specificity        | Testis and ovary specific. Also expressed in several cancers.                                                                                                                                               |
| Function                  |                                                                                                                                                                                                             |
| Background                |                                                                                                                                                                                                             |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                                                        |
