

# RIR2 rabbit pAb

|                           |                                                                                                                                               |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-10123                                                                                                                                    |
| Isotype                   | IgG                                                                                                                                           |
| Reactivity                | Human;Mouse;Rat                                                                                                                               |
| Applications              | WB                                                                                                                                            |
| Gene Name                 | RRM2 RR2                                                                                                                                      |
| Protein Name              | Ribonucleoside-diphosphate reductase subunit M2 (EC 1.17.4.1) (Ribonucleotide reductase small chain) (Ribonucleotide reductase small subunit) |
| Immunogen                 | Synthesized peptide derived from human RIR2 AA range: 260-310                                                                                 |
| Specificity               | This antibody detects endogenous levels of human RIR2                                                                                         |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                       |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                        |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                     |
| Dilution                  | WB 1:1000-2000                                                                                                                                |
| Concentration             | 1 mg/ml                                                                                                                                       |
| Purity                    | ≥90%                                                                                                                                          |
| Storage Stability         | -20°C/1 year                                                                                                                                  |
| Synonyms                  |                                                                                                                                               |
| Observed Band             |                                                                                                                                               |
| Cell Pathway              | Cytoplasm . Nucleus . Localized to the cytoplasm in S phase cells. May localize to the nucleus in G2 phase cells. .                           |
| Tissue Specificity        |                                                                                                                                               |
| Function                  |                                                                                                                                               |
| Background                |                                                                                                                                               |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                          |
| Usage suggestions         | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.             |
