

MOT2 Monoclonal Antibody

expression in testis, moderate to low in spleen, heart, kidney, pancreas, skeleta muscle, brain and Leukocyte. Restricted expression in normal tissues, but wide expressed in cancer cells. Function This gene is a member of the monocarboxylate transporter family. Members in this family transport metabolites, such as lactate, pyruvate, and ketone bodies. The protein encoded by this gene catalyzes the proton-linked transport of monocarboxylates and has the highest affinity for pyruvate. This protein has be		
Reactivity Human;Rat;Mouse Applications WB Gene Name SLC16A7 MCT2 Protein Name Monocarboxylate transporter 2 (MCT 2) (Solute carrier family 16 member 7) Immunogen Synthesized peptide derived from human protein . at AA range: 220-300 Specificity MOT2 Monoclonal Antibody detects endogenous levels of protein. Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide. Source Monoclonal, Mouse,IgG Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms Observed Band 52kD Cell Pathway Cell membrane; Multi-pass membrane protein. Tissue Specificity Detected in heart and in blood lymphocytes and monocytes (at protein level). His expression in testis, moderate to low in spleen, heart, kidney, pancreas, skeleta muscle, brain and Leukocyte. Restricted expression in normal tissues, but wide expressed in cancer cells. Function Background This gene is a member of the monocarboxylate transporter family. Members in this family transport metabolites, such as lactate, pyruvate, and ketone bodies. The protein encoded by this gene catalyzes the proton-linked transport of monocarboxylates and has the highest affinity for pyruvate. This protein has be reported to be more highly expressed in prostate and colorectal cancer specime when compared to control specimens. Alternative splicing results in multiple	Catalog No	BYmab-05743
