

K-cadherin Monoclonal Antibody

Catalog No BYmab-17078 Isotype IgG Reactivity Human;Mouse;Rat Applications WB Gene Name CDH6 Protein Name Cadherin-6 Immunogen Synthesized peptide derived from K-cadherin . at AA range: 180-260 Specificity K-cadherin Monoclonal Antibody detects endogenous levels of K-cadherin protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Monoclonal, Mouse, IgG Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen. Dillution WB 1:500-2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms CDH6; Cadherin-6; Kidney cadherin; K-cadherin Observed Band 88kD Cell Pathway Cell membrane; Single-pass type I membrane protein. Tissue Specificity Highly expressed in brain, cerebellum, and kidney. Lung, pancreas, and gastric mucosa show a weak expression. Also expressed in certain liver and kidney under a cadherins may thus contribute to the sorting of heterogeneous cell types, similarity-Contains 5 cadherin domains.		
Reactivity Human;Mouse;Rat Applications WB Gene Name CDH6 Protein Name Cadherin-6 Immunogen Synthesized peptide derived from K-cadherin . at AA range: 180-260 Specificity K-cadherin Monoclonal Antibody detects endogenous levels of K-cadherin protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Monoclonal, Mouse,IgG Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms CDH6; Cadherin-6; Kidney cadherin; K-cadherin Observed Band 88kD Cell Pathway Cell membrane; Single-pass type I membrane protein. Tissue Specificity Highly expressed in brain, cerebellum, and kidney. Lung, pancreas, and gastric mucosa show a weak expression. Also expressed in certain liver and kidney cardinerins. Function function:Cadherins are calcium dependent cell adhesion proteins. They preferentally intereat with themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types, similarly:Contains S cadherin domains, tissue specificity-Highly expressed in brain, cerebellum and kidney. Lung, pancreas, and gastric mucosa show a weak expression. Also expressed in certain liver and kidney carcinomas. Function Tissue Specificity Indighty expressed in certain liver and kidney carcinomas. Tis gene encodes a member of the cadherin superfamily. Cadherins are encoded protein is a critical roles in cell differentiation and morphopenesis. The encoded protein is a	Catalog No	BYmab-17078
