| <b>Catalog No</b>         | BYab-18924                                                                                                                                                                                                                                                                                        |
| <b>Isotype</b>            | IgG                                                                                                                                                                                                                                                                                               |
| <b>Reactivity</b>         | Human                                                                                                                                                                                                                                                                                             |
| <b>Applications</b>       | WB;ELISA                                                                                                                                                                                                                                                                                          |
| <b>Gene Name</b>          | CA6                                                                                                                                                                                                                                                                                               |
| <b>Protein Name</b>       | Carbonic anhydrase 6                                                                                                                                                                                                                                                                              |
| <b>Immunogen</b>          | The antiserum was produced against synthesized peptide derived from human CA6. AA range:231-280                                                                                                                                                                                                   |
| <b>Specificity</b>        | CA VI Polyclonal Antibody detects endogenous levels of CA VI protein.                                                                                                                                                                                                                             |
| <b>Formulation</b>        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                                                                                                           |
| <b>Source</b>             | Polyclonal, Rabbit,IgG                                                                                                                                                                                                                                                                            |
| <b>Purification</b>       | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                                                             |
| <b>Dilution</b>           | Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.                                                                                                                                                                                                               |
| <b>Concentration</b>      | 1 mg/ml                                                                                                                                                                                                                                                                                           |
| <b>Purity</b>             | ≥90%                                                                                                                                                                                                                                                                                              |
| <b>Storage Stability</b>  | -20°C/1 year                                                                                                                                                                                                                                                                                      |
| <b>Synonyms</b>           | CA6; Carbonic anhydrase 6; Carbonate dehydratase VI; Carbonic anhydrase VI; CA-VI; Salivary carbonic anhydrase; Secreted carbonic anhydrase                                                                                                                                                       |
| <b>Observed Band</b>      | 35kD                                                                                                                                                                                                                                                                                              |
| <b>Cell Pathway</b>       | Secreted.                                                                                                                                                                                                                                                                                         |
| <b>Tissue Specificity</b> | Major constituent of saliva.                                                                                                                                                                                                                                                                      |
| <b>Function</b>           | catalytic activity:H(2)CO(3) = CO(2) + H(2)O.,cofactor:Zinc.,function:Reversible hydration of carbon dioxide. Its role in saliva is unknown.,similarity:Belongs to the alpha-carbonic anhydrase family.,tissue specificity:Major constituent of saliva.,                                          |
| <b>Background</b>         | The protein encoded by this gene is one of several isozymes of carbonic anhydrase. This protein is found only in salivary glands and saliva and protein may play a role in the reversible hydratation of carbon dioxide though its function in saliva is unknown. **matters needing attention**

Avoid repeated freezing and thawing!

**Usage suggestions**

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
