| <b>Catalog No</b>                | BYab-22778                                                                                                                                                                                                                                                                       |
| <b>Isotype</b>                   | IgG                                                                                                                                                                                                                                                                              |
| <b>Reactivity</b>                | Human;Rat;Mouse;                                                                                                                                                                                                                                                                 |
| <b>Applications</b>              | WB;ELISA                                                                                                                                                                                                                                                                         |
| <b>Gene Name</b>                 | TRIM31 C6orf13 RNF                                                                                                                                                                                                                                                               |
| <b>Protein Name</b>              | E3 ubiquitin-protein ligase TRIM31 (EC 6.3.2.-) (Tripartite motif-containing protein 31)                                                                                                                                                                                         |
| <b>Immunogen</b>                 | Synthesized peptide derived from part region of human protein                                                                                                                                                                                                                    |
| <b>Specificity</b>               | TRI31 Polyclonal Antibody detects endogenous levels of protein.                                                                                                                                                                                                                  |
| <b>Formulation</b>               | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                                                                                                                                   |
| <b>Source</b>                    | Polyclonal, Rabbit,IgG                                                                                                                                                                                                                                                           |
| <b>Purification</b>              | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                                            |
| <b>Dilution</b>                  | WB 1:500-2000 ELISA 1:5000-20000                                                                                                                                                                                                                                                 |
| <b>Concentration</b>             | 1 mg/ml                                                                                                                                                                                                                                                                          |
| <b>Purity</b>                    | ≥90%                                                                                                                                                                                                                                                                             |
| <b>Storage Stability</b>         | -20°C/1 year                                                                                                                                                                                                                                                                     |
| <b>Synonyms</b>                  |                                                                                                                                                                                                                                                                                  |
| <b>Observed Band</b>             | 46kD                                                                                                                                                                                                                                                                             |
| <b>Cell Pathway</b>              | Cytoplasm . Mitochondrion . Predominantly expressed in the cytoplasm but a fraction is associated with the mitochondria.                                                                                                                                                         |
| <b>Tissue Specificity</b>        | Up-regulated in gastric adenocarcinomas.                                                                                                                                                                                                                                         |
| <b>Function</b>                  | similarity:Belongs to the TRIM/RBCC family.,similarity:Contains 1 B box-type zinc finger.,similarity:Contains 1 RING-type zinc finger.,                                                                                                                                          |
| <b>Background</b>                | This gene encodes a protein that functions as an E3 ubiquitin-protein ligase. This gene shows altered expression in certain tumors and may be a negative regulator of cell growth. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jan 2016], |
| <b>matters needing attention</b> | Avoid repeated freezing and thawing!                                                                                                                                                                                                                                             |
