

# LRIG3 Polyclonal Antibody

|                           |                                                                                                                                                                                            |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-23036                                                                                                                                                                                 |
| Isotype                   | IgG                                                                                                                                                                                        |
| Reactivity                | Human;Mouse                                                                                                                                                                                |
| Applications              | WB;ELISA                                                                                                                                                                                   |
| Gene Name                 | LRIG3 LIG3 UNQ287/PRO326/PRO335                                                                                                                                                            |
| Protein Name              | Leucine-rich repeats and immunoglobulin-like domains protein 3 (LIG-3)                                                                                                                     |
| Immunogen                 | Synthesized peptide derived from part region of human protein                                                                                                                              |
| Specificity               | LRIG3 Polyclonal Antibody detects endogenous levels of protein.                                                                                                                            |
| Formulation               | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                                             |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                                                     |
| Purification              | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                      |
| Dilution                  | WB 1:500-2000 ELISA 1:5000-20000                                                                                                                                                           |
| Concentration             | 1 mg/ml                                                                                                                                                                                    |
| Purity                    | ≥90%                                                                                                                                                                                       |
| Storage Stability         | -20°C/1 year                                                                                                                                                                               |
| Synonyms                  |                                                                                                                                                                                            |
| Observed Band             | 123kD                                                                                                                                                                                      |
| Cell Pathway              | Cell membrane ; Single-pass type I membrane protein . Cytoplasmic vesicle membrane ; Single-pass type I membrane protein . Detected in cytoplasmic vesicles when coexpressed with ERBB4. . |
| Tissue Specificity        | Widely expressed.                                                                                                                                                                          |
| Function                  | similarity:Contains 17 LRR (leucine-rich) repeats.,similarity:Contains 3 Ig-like C2-type (immunoglobulin-like) domains.,tissue specificity:Widely expressed.,                              |
| Background                | similarity:Contains 17 LRR (leucine-rich) repeats.,similarity:Contains 3 Ig-like C2-type (immunoglobulin-like) domains.,tissue specificity:Widely expressed.,                              |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                                       |
