| <b>Reactivity</b>                | Human;Rat;Mouse                                                                                                                                                                                                                                    |
| <b>Applications</b>              | WB;ELISA                                                                                                                                                                                                                                           |
| <b>Gene Name</b>                 | TAAR2 GPR58                                                                                                                                                                                                                                        |
| <b>Protein Name</b>              | Trace amine-associated receptor 2 (TaR-2) (Trace amine receptor 2) (G-protein coupled receptor 58)                                                                                                                                                 |
| <b>Immunogen</b>                 | Synthesized peptide derived from human protein . at AA range: 10-90                                                                                                                                                                                |
| <b>Specificity</b>               | TAAR2 Polyclonal Antibody detects endogenous levels of protein.                                                                                                                                                                                    |
| <b>Formulation</b>               | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                                                                                                     |
| <b>Source</b>                    | Polyclonal, Rabbit,IgG                                                                                                                                                                                                                             |
| <b>Purification</b>              | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                              |
| <b>Dilution</b>                  | WB 1:500-2000 ELISA 1:5000-20000                                                                                                                                                                                                                   |
| <b>Concentration</b>             | 1 mg/ml                                                                                                                                                                                                                                            |
| <b>Purity</b>                    | ≥90%                                                                                                                                                                                                                                               |
| <b>Storage Stability</b>         | -20°C/1 year                                                                                                                                                                                                                                       |
| <b>Synonyms</b>                  |                                                                                                                                                                                                                                                    |
| <b>Observed Band</b>             | 38kD                                                                                                                                                                                                                                               |
| <b>Cell Pathway</b>              | Cell membrane; Multi-pass membrane protein.                                                                                                                                                                                                        |
| <b>Tissue Specificity</b>        | Not expressed in the pons, thalamus, hypothalamus, hippocampus, caudate, putamen, frontal cortex, basal forebrain, midbrain or liver.                                                                                                              |
| <b>Function</b>                  | function:Orphan receptor.,similarity:Belongs to the G-protein coupled receptor 1 family.,tissue specificity:Not expressed in the pons, thalamus, hypothalamus, hippocampus, caudate, putamen, frontal cortex, basal forebrain, midbrain or liver., |
| <b>Background</b>                | function:Orphan receptor.,similarity:Belongs to the G-protein coupled receptor 1 family.,tissue specificity:Not expressed in the pons, thalamus, hypothalamus, hippocampus, caudate, putamen, frontal cortex, basal forebrain, midbrain or liver., |
| <b>matters needing attention</b> | Avoid repeated freezing and thawing!                                                                                                                                                                                                               |
