

# EFC13 rabbit pAb

|                           |                                                                                                                                   |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-24357                                                                                                                        |
| Isotype                   | IgG                                                                                                                               |
| Reactivity                | Human;Rat;Mouse;                                                                                                                  |
| Applications              | WB                                                                                                                                |
| Gene Name                 | EFCAB13 C17orf57                                                                                                                  |
| Protein Name              | EFC13                                                                                                                             |
| Immunogen                 | Synthesized peptide derived from human EFC13 AA range: 245-295                                                                    |
| Specificity               | This antibody detects endogenous levels of EFC13 at Human                                                                         |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.291% sodium azide.                                                          |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                            |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                         |
| Dilution                  | WB 1:500-2000                                                                                                                     |
| Concentration             | 1 mg/ml                                                                                                                           |
| Purity                    | ≥90%                                                                                                                              |
| Storage Stability         | -20°C/1 year                                                                                                                      |
| Synonyms                  | EF-hand calcium-binding domain-containing protein 13                                                                              |
| Observed Band             | 105kD                                                                                                                             |
| Cell Pathway              | nucleus,nucleoplasm,cytoplasm,                                                                                                    |
| Tissue Specificity        | Human fetal kidney,Testis,                                                                                                        |
| Function                  | similarity:Contains 6 EF-hand domains.,                                                                                           |
| Background                |                                                                                                                                   |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                              |
| Usage suggestions         | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel. |
