## LYPD8 rabbit pAb

|                           |                                                                                                                                    |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-24609                                                                                                                         |
| Isotype                   | IgG                                                                                                                                |
| Reactivity                | Human; Mouse                                                                                                                       |
| Applications              | WB                                                                                                                                 |
| Gene Name                 | LYPD8 UNQ511/PRO1026                                                                                                               |
| Protein Name              | LYPD8                                                                                                                              |
| Immunogen                 | Synthesized peptide derived from human LYPD8 AA range: 42-92                                                                       |
| Specificity               | This antibody detects endogenous levels of LYPD8 at Human/Mouse                                                                    |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                            |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                             |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                          |
| Dilution                  | WB 1: 500-2000                                                                                                                     |
| Concentration             | 1 mg/ml                                                                                                                            |
| Purity                    | ≥90%                                                                                                                               |
| Storage Stability         | -20°C/1 year                                                                                                                       |
| Synonyms                  |                                                                                                                                    |
| Observed Band             |                                                                                                                                    |
| Cell Pathway              | Cell membrane ; Lipid-anchor, GPI-anchor . Secreted . Secreted into the lumen of the colon following cleavage of the GPI-anchor. . |
| Tissue Specificity        | Expressed in the large intestine. Preferentially expressed on the epithelial layer exposed to the lumen (at protein level).        |
| Function                  | similarity:Belongs to the CNF-like-inhibitor family.,                                                                              |
| Background                |                                                                                                                                    |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                               |
