

# ZN501 rabbit pAb

|                           |                                                                                                                                                                                 |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-25035                                                                                                                                                                      |
| Isotype                   | IgG                                                                                                                                                                             |
| Reactivity                | Human;Rat;Mouse;                                                                                                                                                                |
| Applications              | WB                                                                                                                                                                              |
| Gene Name                 | ZNF501 ZNF52                                                                                                                                                                    |
| Protein Name              | ZN501                                                                                                                                                                           |
| Immunogen                 | Synthesized peptide derived from human ZN501 AA range: 131-181                                                                                                                  |
| Specificity               | This antibody detects endogenous levels of ZN501 at Human                                                                                                                       |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                         |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                                          |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                                                       |
| Dilution                  | WB 1: 500-2000                                                                                                                                                                  |
| Concentration             | 1 mg/ml                                                                                                                                                                         |
| Purity                    | ≥90%                                                                                                                                                                            |
| Storage Stability         | -20°C/1 year                                                                                                                                                                    |
| Synonyms                  |                                                                                                                                                                                 |
| Observed Band             |                                                                                                                                                                                 |
| Cell Pathway              | Nucleus . Nucleus, nucleolus .                                                                                                                                                  |
| Tissue Specificity        |                                                                                                                                                                                 |
| Function                  | function:May be involved in transcriptional regulation.,similarity:Belongs to the krueppel C2H2-type zinc-finger protein family.,similarity:Contains 9 C2H2-type zinc fingers., |
| Background                |                                                                                                                                                                                 |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                                            |
