

# RRMJ3 rabbit pAb

|                           |                                                                                                                                                        |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Catalog No                | BYab-26065                                                                                                                                             |
| Isotype                   | IgG                                                                                                                                                    |
| Reactivity                | Human;Mouse;Rat                                                                                                                                        |
| Applications              | WB                                                                                                                                                     |
| Gene Name                 | FTSJ3 SB92                                                                                                                                             |
| Protein Name              | pre-rRNA processing protein FTSJ3 (EC 2.1.1.-) (Protein ftsJ homolog 3) (Putative rRNA methyltransferase 3) (rRNA (uridine-2'-O-)-methyltransferase 3) |
| Immunogen                 | Synthesized peptide derived from human RRMJ3 AA range: 628-678                                                                                         |
| Specificity               | This antibody detects endogenous levels of human RRMJ3                                                                                                 |
| Formulation               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                |
| Source                    | Polyclonal, Rabbit,IgG                                                                                                                                 |
| Purification              | The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.                                              |
| Dilution                  | WB 1:1000-2000                                                                                                                                         |
| Concentration             | 1 mg/ml                                                                                                                                                |
| Purity                    | ≥90%                                                                                                                                                   |
| Storage Stability         | -20°C/1 year                                                                                                                                           |
| Synonyms                  |                                                                                                                                                        |
| Observed Band             |                                                                                                                                                        |
| Cell Pathway              | Nucleus, nucleolus .                                                                                                                                   |
| Tissue Specificity        |                                                                                                                                                        |
| Function                  |                                                                                                                                                        |
| Background                |                                                                                                                                                        |
| matters needing attention | Avoid repeated freezing and thawing!                                                                                                                   |
| Usage suggestions         | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.                      |
