

# SSX4 rabbit pAb

|        |                                                                                                                                   |
|--------|-----------------------------------------------------------------------------------------------------------------------------------|
| 货号     | BYab-33248                                                                                                                        |
| 同位型    | IgG                                                                                                                               |
| 应用     | WB                                                                                                                                |
| 种属     | Human                                                                                                                             |
| 靶点     | SSX4; SSX4B                                                                                                                       |
| 基因名称   | SSX4 SSX4A; SSX4B                                                                                                                 |
| 蛋白名称   | Protein SSX4 (Cancer/testis antigen 5.4) (CT5.4)                                                                                  |
| 免疫原    | Synthesized peptide derived from human SSX4                                                                                       |
| 特异性    | This antibody detects endogenous levels of SSX4 at Human                                                                          |
| 组成     | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                           |
| 来源     | Polyclonal, Rabbit,IgG                                                                                                            |
| 稀释     | WB 1:500-2000                                                                                                                     |
| 纯化工艺   | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.             |
| 分子量    | 21kD                                                                                                                              |
| 功能     | Could act as a modulator of transcription.                                                                                        |
| 浓度     | 1 mg/ml                                                                                                                           |
| 储存     | -15°C to -25°C/1 year(Do not lower than -25°C)                                                                                    |
| 有关注意事项 | Avoid repeated freezing and thawing!                                                                                              |
| 使用建议   | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel. |
